Dear Mrs & Mr. Babcock,  
We are in our first jet!  
Our altitude is about 60 miles  
up! WHK has been fascinated  
since our departure from  
Nairobi at 0220 this  
morning.

We had a stop at Khartoum  
and of course remembered our  
trip 7 Nov. 1958.

Our visit to Zanzibar  
was interesting - clove and  
cinnamon trees abound.  
Children got a good sunburn  
on a beautiful beach where  
they drank milk from fresh coconut  
coconuts. I allow love Bob
